Instant upgrades

Instant upgrade fares may be offered in select markets on eligible booking inventories, giving members an opportunity to travel in the next higher cabin at the lower cabin rate.

These fares are often subject to fare rules that can include:

- Limited inventories
- Round-trip booking requirements
- Specific point of origin requirements

On [aa.com](https://www.aa.com), you'll know an instant upgrade is available when you see a reference to "Upgrade to First" or "Upgrade to Business" in the flight display on the Choose Flights page.

For more information, please visit airpass.aa.com.

Each market is unique, and instant upgrades are subject to market availability and partner airline cabin restrictions.

If you can't find your desired upgrade cabin, please call Reservations for assistance at 800-433-6464, and request an UP fare from Business to First class, or from Economy to Business.

When booking through your travel agency, ask for an UP fare from Main Cabin to First/Business on a 2-cabin aircraft or Business to First class on a 3-cabin aircraft.
